

# Aqua-Q's cost-optimised smart solution for Global Water shortage - **AQUATRACK® & AQUA-REUSE!**

Funders, innovators Ulla & Sudhir Chowdhury (middle pair) of Aqua-Q, a Swedish SME receives the IWA innovation **Gold prize award at Tokyo, 2018** for its ground-breaking patented innovation project AQUATRACK® & AQUA-REUSE. An optical (laser) real-time biological water quality monitoring and sampling system for micro-contaminants coupled with ozone polishing to remove both pathogens & pharmaceutical residues in reclaimed water without RO and GAC filter. To provide water safety & security is Aqua-Qs mission.

Silver prize was awarded to Pure Alta, Florida (left) & Bronze price was awarded to SUEZ (right) during that occasion.

Welcoming Sponsors, Financers, Strategic co-operation partners to commercialize our ETV verified technological solution for a global progressive market-changing Water Technology and Infrastructure.
